Form 990 - 2008

The Violence Policy Center (VPC) is a national 501(c)(3) educational foundation working to reduce firearms violence in America. The foundation of the VPC's approach is the recognition that firearms violence stems not solely from criminal use, but from the widespread marketing and distribution of an inherently dangerous consumer product of which specific categories—such as handguns and assault weapons—have very limited utility and inflict high costs on society in the form of premature death and debilitating injury. Through its research and public education activities, the VPC helps drive effective public policy while involving individuals and organizations from affected constituencies in efforts to reduce firearms violence.

In its work, the VPC satisfies the technical requirements of the facts and circumstances public support test of Regulation Section 1.170-9(e)(3) for the following reasons:

- Significantly more than 10 percent of the total support of the Violence Policy Center is eligible public support. This year the numerator of the VPC's support fraction is 22.01 percent.
- The Violence Policy Center maintains an active and bona fide program for the solicitation of funds from a range of public sources. During the year, the VPC conducted the following fundraising activities which were consistent with the size and scope of charitable purposes—

Researched sources of corporate support.

Researched sources of foundation support.

Researched and cultivated new individual donors.

Form 990-2008

 The Violence Policy Center receives support from a representative number of sources. It does not receive significant funding from the members of a single family. The VPC received funding from four major foundations, small family foundations, corporate contributions, as well as individual contributions from across America.

- The VPC's board of directors consists of a diverse membership from across the nation who bring to the organization a wide range of experience that can be applied to reducing gun death and injury in America.
- The VPC publishes numerous studies, reports, and articles which serve as educational materials that are widely available to the interested public. These materials are often disseminated by other organizations and circulated to their own networks. The VPC also maintains a frequently updated and continually expanding web site that offers a wide range of information to the public.
- The Violence Policy Center's work benefits members of the general public and the VPC draws upon the expertise of, and works with, individual members of the public who are experts on firearms violence and violence prevention issues, including researchers, attorneys, public officials, community leaders, service providers, academics, reporters, advocates, and victims of gun violence. The goal of the VPC is to help make the complex issues of firearms violence and violence prevention policy more easily understandable to a wide audience.
- The Violence Policy Center receives public support from the Combined Federal Campaign, a public charity.
- The Violence Policy Center's activities, virtually by definition, benefit a wide range of individuals sharing a common interest: increased safety and a reduction of gun death and injury. Accordingly, all Americans have a direct and tangible interest in its activities.
